

## Portables for Oxygen Measurement and Sensors – Product Range

		Order No.
Portavo 907 Oxy		
	Portavo 907 for measurement with SE 340 optical oxygen sensor or another digital Memosens sensor for pH, conductivity or oxygen, incl. Paraly SW 112 configuration software with USB connector cable.	907 Multi Oxy
Portavo 904 Oxy		
	Portavo 904 for measurement with digital Memosens oxygen sensors, incl. Paraly SW 112 configuration software with USB connector cable.	904 Oxy
Portavo 907 Oxy Set		
	Set consisting of Portavo 907 and one SE 340 digital optical oxygen sensor, incl. Paraly SW 112 configuration software with USB connector cable.	907 Multi Oxy Set
Oxygen sensor		
	The SE 315 oxygen sensor with Memosens connector system requires low maintenance and is equipped with a temperature detector. It is characterized by its high long-term stability, fast response and low flow dependence. The sensor is designed for simultaneous measurement of dissolved oxygen and temperature.	SE 315 MS
Optical oxygen sensor		
	The optical measuring principle and digital data transfer capability make the SE 340 oxygen sensor ideally suited for use with the Portavo 907. It is robust and water-proof (IP 68) and its extremely fast response makes it suitable for a multitude of applications. Another advantage is the flow-free and easy-to-clean beveled membrane. With 1.5 m fixed cable.	SE 340
Sensor protection / calibration cap		
	Sensor protector which also serves as calibration beaker for the SE 340 optical oxygen sensor.	ZU 0911
Protective cap		
	Sensor cap, spare part for SE 340 optical oxygen sensor.	ZU 0913

**Accessories – Product Range**

Memosens cable		Order No.
	Measuring cable for digital sensors with Memosens connector, 1.5 m	CA/MS-001XFA
Sensor quiver		
	5 quivers, as replacement, for leak-proof storage of sensors	ZU 0929
Robust field case		
	For meter and sensor	ZU 0934
Li-ion battery		
	Li-ion battery (USB chargeable, for Portavo 904 and 907 only)	ZU 0925
Flow cell		
	for SE 315 oxygen sensor, with flexible tube connections	ZU 0284
Maintenance kit		
	Electrolyte, 3 membrane caps	ZU 0879
